Hazards: No data available.				
Indication of immediate medical attention and special treatment needed				
Treatment: Get medical attention if symptoms occur.				
5. Fire-fighting measures				
General Fire Hazards: Use water spray to keep fire-exposed containers cool. Fight fire from protected location. Move containers from fire area if you can do so w risk.				
Suitable (and unsuitable) extinguishing media				
Suitable extinguishing Use fire-extinguishing media appropriate for surrounding materials. media:				
Unsuitable extinguishing Do not use water jet as an extinguisher, as this will spread the fire. media:				
Specific hazards arising from the chemical:Vapors may travel considerable distance to a source of ignition and f back.	lash

Special fire fighting No data available. procedures:				
Special protective equipment for fire-fighters: Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.				
6. Accidental release measures				

Accidental release measures:	Prevent entry into waterways, sewer, basements or confined areas. Stop the flow of material, if this is without risk. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop leak if you can do so without risk.
Methods and material for containment and cleaning up:	Absorb spill with vermiculite or other inert material, then place in a container for chemical waste.
Environmental Precautions:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water sources or sewer.
7. Handling and storage	
Handling	
Technical measures (e.g. Local and general ventilation):	No data available.
Safe handling advice:	Avoid contact with eyes. Wash hands thoroughly after handling. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
