SW384 FAST TACK Super Flash Pallet Adhesive

DESCRIPTION: No. 384 FAST TACK Super Flash Adhesive is a textile screen printing pallet adhesive ideal for flash curing. This high-quality industrial grade spray adhesive has excellent heat resistance. It remains tacky even when exposed repeatedly to the high temperature required to cure plastisol inks. It will not transfer to fabric or allow the fabric to shift during the screenprinting process.

USES: Safe to use on any fabric.

- Exceptional heat resistance
 - Long lasting tack
 - Will not transfer to fabric

AFTER USE: The adhesive spray contains high solids. Some adhesive build-up will occur at the spray tip. When fresh, this is easily removed by wiping with a tissue. Dried build-up can be cleaned with thinner or Sprayway C-60 Solvent Degreaser. After spraying, turn can upside down and spray for two seconds. This will keep the valve from plugging.
