SPRAYWAY, INC. LAUNCHES SW-557 SALT OFF
Say Good-Bye to Stubborn Salt Stains on Carpets and Mats

Addison, Ill., March. 23, 2015 – Sprayway Inc., a leading specialty chemical solution provider and aerosol manufacturer, is pleased to announce the launch of Sprayway SW-557 Salt Off to its extensive line of automotive detail and maintenance products.

Sprayway SW-557 Salt Off is a high-quality, professional grade carpet and fabric cleaner that quickly removes stubborn salt stains. Great for use in your vehicle or around the home, Salt Off features a built-in brush cap for loosening salt from fabrics, and an inverted spray that produces a penetrating foam. Using Salt Off is quick and easy. Simply remove loose dirt from the area to be treated, hold can upside down and spray area until a thick foam develops. Let stand for 5 to 10 minutes to allow the foam to loosen the salt stain. Use a clean rag or strong vacuum and brush to remove residue and liquid from the treated area.

“After enduring the long winter months, we’re pleased to bring Salt Off to market just in time for spring cleaning,” said Ed Hribar, Sprayway’s Vice President of Distribution Sales. “With a built-in brush to loosen salt from carpets and mats, Sprayway customers will be pleased to find that SW-557 Salt Off is quick and easy to use.”

Maker of “The World’s Best Glass Cleaner,” Sprayway brand products are widely popular among auto detail enthusiasts and maintenance professionals. Sprayway offers a complete line of vehicle care products, including brake parts cleaner, undercoating, degreasers and lubricants, as well as appearance products such as detail wax, tire shine, Blast-Out odor eliminators and air fresheners.

About Sprayway
