

SEA CARE

PROFESSIONAL GRADE
MARINE
AEROSOL PRODUCTS

GLASS CLEANER Foaming marine glass and plastic cleaner that sticks to surfaces providing UVA/UVB protection, and features Anti-Static and Anti-Fog properties and is designed to be used on plexiglass, lexan, Isinglass, Strataglass, vinyl, chrome and many other surfaces. Pleasant fragrance.

HEAVY DUTY DEGREASER NON-FLAMMABLE This High Dielectric, quick drying formula with a high flushing spray pattern is a great tool for removing grease, grime, dirt and resin when a non-flammable degreaser is needed. Not plastic safe. CA compliant.

CARB & CHOKE CLEANER This highly concentrated, low VOC, ultra high volatility formulation will dissolve carburetor deposits and fuel system contaminants such as gum and sludge. Does not harm oxygen sensors and will increase the life of pistons, rings and cylinder walls. CA compliant.

OE CONTACT CLEANER Displaces moisture. Helps prevent electrical malfunctions and condensation. Ideal for applications where there is high humidity present and a lower flash point and higher evaporating rate is needed. Safe on most plastics. Non-staining and non-corrosive.

HEAVY DUTY DEGREASER-FLAMMABLE A highly concentrated, non-chlorinated formula quickly blasts away grease and oil. Will not leave a film or resin behind. Not safe on plastic, rubber or polycarbonate surfaces. CA/OTC compliant.

CITRUS CLEANER & DEGREASER A natural orange citrus solvent (d-limonene) that cleans and deodorizes most surfaces. Spray this foaming product and wipe clean. Does not contain chlorinated solvents, petroleum distillates or glycolethers. Safe for use on a variety of washable surfaces.

HEAVY DUTY MOISTURE DISPLACER Hi-dielectric, heavy duty moisture displacer reaches deep to loosen nuts and bolts where corrosion from a wet and humid environment have taken its toll. Will clean and protect faster than most other like products. Will assist in retarding corrosion with its rust inhibitor. CARB/OTC compliant.

BATTERY TERMINAL CLEANER & PROTECTANT Helps to extend battery life and leaves a protectant behind to delay acid from forming again. This will aid in increasing battery power output to make sure you get the most out of your system. Includes a color performance indicator.

HEAVY DUTY SILICONE This heavy duty blend of medium and light viscosity silicone fluids leaves a colorless, tenacious wet film when applied. Excellent for use on rubber or other applications where high friction may be encountered. Heat stable from -40°F to 500°F.

HEAVY DUTY PRO LUBE Contains PTFE and is formulated with MOLY to provide long lasting protection and lubrication. Heat stable up to 500°F, it can handle the toughest environments and will reach deep into hard to reach places. Excellent rust preventative. Pleasant pine-fragrance. CARB/OTC compliant.

BRAKE PARTS CLEANER Highly concentrated, low VOC solvent degreaser is designed to clean the most dirty of metal surfaces. Product will evaporate quickly and will not leave a residue behind. Not for use on most plastic surfaces. Not for sale in California.

WHITE LIGHTNING Highly concentrated white grease where metal meets metal in a wet, hot, humid environment. Long lasting lubricating film will not wash away, run off or dry out. Excellent for use on slides, coupling, rigging, gears, hinges, linkage, tooling or reels.
